SENLIS COUNCIL - AFGHANISTAN POPPY

1. Opium Poppy has many uses, including being used in the production of illegal narcotics such as heroin. However, it can also be used for the production of legal medicine, such as morphine and codeine. In Afghanistan, there is an abundance of poppy, but it is used to produce heroin. To what degree would you support or oppose a 'poppy for medicine' program which would allow farmers to switch their crop away from the production of illegal narcotics, and towards the production of legal medicines?

SENLIS COUNCIL - AFGHANISTAN POPPY

5. In order to combat the growing of poppies for the production of heroin, the international community has begun to use tractors to eradicate poppy fields throughout Afghanistan, but this causes many poppy farmers to lose their only livelihood and means to feed their families. Now that you know that alternative options for poppy production exist, to what degree do you support the eradication of poppy fields?

SENLIS COUNCIL - AFGHANISTAN POPPY

6. Now, some people in particular in the United States say that these poppy fields should be destroyed by spraying the farmer's fields with chemicals because it is a more efficient way to eradicate poppies. To what degree do you support spraying chemicals on Afghan farmer's fields to kill poppy crops?
