IEA's declaration about International Peace Day

International peace wanted and oppressed people have been witnessed that the days which globally named for the human defiance and salvation are now celebrating by the human destructors, it proved that they are hardly working for the human destruction; they are the factors and criminals of world crimes.

If we only take as example the celebrating of 21st September which already celebrates around the world especially in western countries, where always celebrate by high level and respectfully ceremonies also they spend most money for the celebrations.

But if analyses practical acts of US, UK and western rulers that how they struggle for the human peace and security, how they practically act their claimants, it will actually be showed that if there are no American, British and other selfish regimes and do not obstacle before the world peace so, there will not be insecurity in the world, there will be virtual peace throughout the world, the war will end and the world would change by virtual peace and security.

But that is the US and its led Coalition which turn down the would into the fire pit, castrate the two neighbors between them by different matters, finish the peace from them broke down their National means, turn them into poverty etc...

If the Iraqi and Afghani people Ask the International Justice "by the pretence of International peace day" that who dismiss the peace since the last five and seven years in both country, opened the crimes door, entered all the means of killing and Raid, flowed brooks of blood, broke down the importance of independence, trampled the whole human rights, killed and injured two hundreds innocent civilians, killed six years children, just in one month, tortured seventy years elder men in Gontanamo and Bagram prisoners.

It is clearly showed that the human claimants nothing can ask the cruel regimes that how kind of democracy is that to martyr a hundred of thousands of Muslims since last seven years.

The occupation forces & International Day of Peace!!

American despotism and dollars have blinded many people throughout the world even they cover up the sun by two fingers, the current matter of war which massacre all the mankind around the world, especially territories of Afghanistan, Iraq and Palestine and brought them as the oven of fire and gunpowder.

Who has started this durable fighting and has been continued it, who are the factors and instigators of this international matter, why the Muslims do not have the right to establish an Islamic state in the world?

Unfortunately international justice has gotten up to the top of senseless the human protectors of the "International Day of Peace" never ready to hear the vice of oppressed people and openly talk to the oppressors. -21st Sept- has declared as the International Day of Peace, by the UN, on this day thousands of (white pigeons) flew up everywhere by the order of this organization, the demonstrations and marches take place by the name of (peace) but this peace "only a day dreaming and a cheating plan" will it be practically seen?

So, who ever have logic of power for their interests and starving aims, sweep away the independence of free countries believing legal occupying of these, provided prisons "as hell" like Gontanamo, Bagram and Abu-Ghuraib, consider torture of thousands of innocent people as their legal rights, blocked them in cages, take advantage of oil, gas and sources of others, nevertheless it will be by the cost of killing of thousands of innocent people. Is it possible to replace peace instead of war, killing and torture in the existence of these anti-human forces?

We openly say "in every country whereas the war fire has been spread and the nations destroy in, how is it possible to bring the peace. If US, UK and their allies give up from these sufferings and really bring the peace to these countries, there is no doubt that there will be virtual peace and security, the rug of barbarism will be collected the human will began comfortable life from the start.

In fact that is US and its allies fighting everywhere, support the militants and spread seed of war.

Early seven years, while there were peace and security in Afghanistan that "no one can refract it in all over the world", now we see US NATO and the entire world "with the high technology" are not able to bring peace and security in the country.

These all prove that the foreign occupations do not want peace in the country but they throw away the peace and security, there would not be any security

MILNEWS.ca - Military News for Canadians

but they throw away the peace and security, there would not be any security deal in the existence of foreign forces, because they just want to keep up their interests in the region never work for the peace and security in the country, but they always struggle to sweep away stabilization of the country.
