....If you also take steps on Bush's one and do not look at this policy, you will not loose just your country's dignity, economy and peace but this will remain only a story for coming generations. Sweat (Soviet?) Union had also seen dream to rule on the world like you before you but we met their every dreams with soil and dust. Your decision to expel army from Iraq is very right decision. Taking away others freedom, invasion of their rights, vexes and killing people and ruin countries can make the world to stand up against America. You must do the same decision about Afghanistan too, and expel the army from our beloved country as fast as possible....

(more on link)

By the name of Allah the most gracious and most merciful

An Open Letter from the Peaks of Tora Bora to the White House

The president of United States Barak Husain Obama!

First of all you must know that protection from abjectness and wretchedness of the world and from the fire of the hell is just and just Islam. Islam is the only religion that guaranties the success in this world and hereafter.

As you are the first negro president going to take control of the White House, add one thing more important to the history of America that you were the first president of America who accepted the purify faith of Islam.

From this opportunity I want to bring your burly attention to some important points.

Don't you know that your nation has been pushed for a battle with such a nation that is like one body. And this battle absolutely has start but no end.

America's this guess is not right, that attack on an Islamic country is just attack on a country. No its not, you are deviated in your guessing that's why your battle became more lengthy your estimate, usage is more than your approximation and loss is several times more than your assumption. It's not our claim but

MILNEWS.ca - Military News for Canadians

rather its Bush's acknowledgment.

Now when American nation have known that their rulers pushed them in battle without any care and don not find the way to return. American nation had a power at a time in the world but now they lost everything. The defeat of their technology means for fighting and army finished America's dignity.

They gave vote on a hope that you'll release them from this battle. Although you people are on minority in America but all the nation is on a big hope that you'll bring back your country's lost dignity and prestige, you'll make better country's economy and peace, and release their beloved children from this war.

Assess from these situations that how many threatening waves drowned Americans that they are trying to catch every weak and strong straw near them to have salvation.

If you want to be loyal to your nation and really want to have humanity instead savagery, peace instead war and a high economical system instead poverty, so do not wait just finish the previous policy of Bush.

Immediately expel your all army from Afghanistan and all over the Islamic countries and apology to all oppressed nations and accept their all losses.

Do you know that every occurrence has a cause; these incidents could not be finished until elimination of the causes.

11th September's attack on America with all other attacks also has a cause, you have to find this cause and finish it for your nation's benefit and their peace, which is America's failure policy for Israel.

Israel "not just for middle east but for all over the world" is the source of mischief and corruption. America's fully support to them can face America with a big trouble.

Looking to Jerusalem problem as a case of philistine or Arab's is completely folly. Jerusalem problem is a problem for all over the Islamic world. Israel and their supporters will not be save from any king of attack unless Jerusalem is in battle.

You know that Israel always tried to demolish Jerusalem; now at a time they are trying to demolish it through deferent ways. In such a time Israel's support will be clearly challenge for all believers in Islam, and its result is very bitter.

Barak Obama!

If you also take steps on Bush's one and do not look at this policy, you will not loose just your country's dignity, economy and peace but this will remain only a story for coming generations. Sweat Union had also seen dream to rule on the world like you before you but we met their every dreams with soil and dust.

Your decision to expel army from Iraq is very right decision. Taking away others freedom, invasion of their rights, vexes and killing people and ruin countries can make the world to stand up against America.

You must do the same decision about Afghanistan too, and expel the army from our beloved country as fast as possible. You might not study Afghanistan's geographically location. Your guessing that Afghanistan may seized by sending more forces is wrong same like Bush's one at the time of attacking on Afghanistan.

Afghanistan's location does not just harden digesting it for dragons but always invaders gave their lives here and have started the end of their empire from here.

Barak Obama!

Do you know? You have technological enemies here, they can't endure you control on this region. You might remember the stories of your defeat in Vietnam. You have examine this land once I think there is no need reexamine. By the way if you want to do this mistake again you must have its endurance, because these flames can consume White House too, and the situation of Hilmand and Falooja can come in New York and Washington.

If your present army have handed a little bit success then sending more forces is reasonable, but after expending millions of dollars and sacrificing thousands of army since previous 7 years you neither control Afghanistan nor make any loveable place in Afghans hearts, and still you are under pressure. On the contrary people's hatred and disgust is growing day by day not just in Afghanistan but in all over the world Americans may face with trouble.

Afghans have ability for every kind of battle to protect their belief, faith and country. Most of those people you regard them your supporters, friends or slaves hate you cause of their Afghani nature. They fully support us hidden then vou.

More living here in Afghanistan can be dangerous for your.

At the moment you are going downward by the blessing of battle and your opponent are going upward. You are gradually remaining alone in Afghanistan by expelling your supporter's army, and many countries want support Mujahideen.

Barak Obama!

Before your ways are closed we think it with be better to get this opportunity and expel your all army forces under the name of United State otherwise you will leave our beloved country under the name of only Washington and have an end for your battle.

Let Afghans bring an Islamic system in their own country willingly.

Weekly Comment! The Carnage of Innocent and Besieged Palestinians**The Carnage of Innocent and Besieged Palestinians**

The other day, the innocent blood of the besieged Palestinians of the Gaza strip who are deprived of food and relief for months now, were shed ironically under the very eyes of the Islamic Conference, the rulers of tens of Islamic countries and various human rights organizations. The occupying Israeli forces did all these, resulting in the death and injury of at least 700 Palestinians of Gaza. This horrendous event substantiated this hard fact once more that the Islamic Ummah should not live in the world of an utopia any more that these ostensibly altruist organizations would ever live up to their expectations, nor should they maintain that the same entities would ever protect their lives, properties, rights and values.

Had the bloodbath which barbarically occurred in Gaza strip at the hands of the Israeli forces at afternoon time, happened in any other non-Islamic country, say if committed by an Islamic country or a jihad group, all the non-Islamic world, including Bush, Blair, Braun, Sarcosi and other ruthless cutthroats would surely and certainly have raised huge hue and cries all over the world. Would the UNSC have not slapped various bans and restrictions on the alleged perpetrators? The recent example is that of a raid on a hotel in India where some Israeli nationals were killed. We saw with our own eyes, the UNSC intervened by imposing restriction on a number of Jihadic groups merely on suspicions and it was almost near the two neighbors go to war, being tipped by them against each other.

But when hundred of Palestinians are killed as result of Israeli invasion and barbarism within a few minutes; when the Palestinians, both men and women, young and old are martyred in their very home without discrimination, despite having been deprived of essential food items and medicines for a long period, no entity including the UNSC come to the open to hear their cries and voices. No human right foundation stood by their side; nor the so-called Islamic countries, the Arab leagues; OIC took a clear, decisive and firm stand to announce their support and sympathy with the Palestinians.

While condemning the recent Israeli invasion on the Muslims of Gaza and showing sympathy with the victim families of Gaza, the Islamic Emirate of Afghanistan believe that the West, particularly the USA is collaborator in the pogrom of hundreds of Palestinians. This is clear from the statement of the Israeli foreign minister who said that the Israeli raid on Gaza was carried out with full consent and understanding of friends of Israel in the world.

To end, we would like to say to the rulers of the Islamic countries in no ambiguous terms that the current genocide, suffocation, oppression and invasion by the non-Islamic forces aimed at eradicating the values of the Muslims and trampling down their rights is being carried out with full collusion of the anti-Islamic forces of the world. This has been made possible due to your disunity, disarray, and insouciance and because of the domination of the West and the USA on many countries of the Islamic world. It is being materialized unfortunately quid pro quo the West's assistance to help in the prolongation of power of these rulers.

The Islamic Emirate of Afghanistan urges you to come forward for the protection of your people and their values and stop resorting to ways and means which, though may prolong your power, but jeopardize the interests of the common masses. Stop this and save the Islamic ummah.

In conclusion we greet the Mujahideen of the Islamic Emirate for their victories of the last year, and we ask Allah to grant them more in future

لَا يَمْنَعُهُمْ لَوْ شَاءَ قَتْلُهُمْ وَلَا أُولَئِكَ لَمْ يَكُنْ عَصِيًّا

And when it is said unto them: Make not mischief in the earth, they say: We are peacemakers only.

لَا يُجِدُونَ سَبِيلًا لِكَيْ يَكْفُرُوا بِحِلَالِهِ

Are not they indeed the mischief makers? But they perceive not.
