Islamic Emirate Of Afghanistan The Invaders 'Fiasco In 2008 And Their Empty Battle Fields In The New Year'

08-01-2009

In the name of Allah, the Merciful, the Compassionate

In 2008, though the invading forces of crusaders led by the USA brought down a bloodbath on the Afghans, by killing and injuring thousands of them, razing villages to dust in their whole totality as a result of brutal bombardment; turning ceremonies and functions of joys and festivities into carnage scenes, gate crashing into houses and punctuating our miserable and oppressed country men with bullets; they let their trained dogs to bite children and women and did what they could of all oppressions and atrocities. But despite that, in 2008, the Mujahideen of the Islamic Emirate sustained on them defeats in military, political and social fields.

The brave Mujahideen of the Islamic Emirate killed 5220 men of the foreign invaders and 7571 men of the hireling domestic army; shot down 31 planes, and destroyed 2818 vehicles belonging to the invaders and the hireling army. This loss was caused to the enemy as a result of the Mujahideen's face-to-face clashes, martyrdom bombing and planted roadside mines.

The Islamic Emirate proved its viability and upper hand in the political field as well. In the past year, the invading forces, tried their best to urge the Islamic Emirate to come to a table of negotiation and turn to a diplomatic solution. Thus they were knocking at the doors of many regional countries but in fact, these were empty words based on tactical gimmicks which did not achieve the end.

The Islamic Emirate believes that the invaders' apparent change of direction to accept a diplomatic solutions is the result of the huge losses caused to them at the hand of Mujahideen through decisive attacks. Therefore, the Islamic Emirate is of the opinion that this gimmick of negotiation is launched to make the Afghan nation doubtful about the firmness of the stand of the Islamic Emirate. Hence, the Islamic Emirate spurned this offer to be a conspiracy and a cheap initiative based on duplicity. The Islamic Emirate did not back up from its firm and rationale stand.

The USA was facing isolation throughout 2008. She was not able to encourage NATO member countries to send more troops to Afghanistan and increase their troops presence in Afghanistan from what they have now in the country.

At the end of the year, America was compelled to announce willy-nilly that she was going to send new troops to Afghanistan. This was readily a fiasco for America, forcing her to isolation. However, the most tragic and bitter event, which took place in USA, was the economic meltdown and the financial crisis. The USA has \$700 billion budget deficit because of the wars in Afghanistan and Iraq. She has no exit strategy, nor means to flounder out of these tangles.

Observers believe that on the face of the defeats and setbacks of America and her allies seen in 2008, it is plausible that she will face further isolation in the new year; NATO member countries may depart their ways with her. The USA will face more losses in the current year as against the past year because the Afghans have come to the conclusion to stay away from believing in the empty promises of USA. They will not leave the obligation of Jihad to be fulfilled only by the Mujahideen of the Islamic Emirate.

It will be seen that in the new year, the land of Afghanistan will become the scene of a popular upheaval against the invading forces. It will be a year of resistance and uprising to give an unforgettable lesson to the enemy.
