01-02-2009

In the name of Allah, the Merciful, the Compassionate

1) If the slave Kabul administration gives these militias any name but in fact it is a structure like the community era Glemjim, Kyan and Abddul Jabar militias. The nation may not be deceived on these names.

2) The formation of new militias is testifying the fact that US, NATO and Afghan National Army and Police forces have completely suffered defeat against the Taliban. They are like a drowning person trying to catch any floating object. They are repeating the same communists' experience."

3) The brave nation of Afghanistan will not see these irresponsible raiders as protectors and will also not send their sons to these useless ranks. Those who will stand by them will face the same fate as of the hirelings of puppet regime," it added.

4) All the officials of the Islamic Emirates of Afghanistan, especially commanders with the help of religious scholars, notable, elders and jihadi commanders will foil with full force this conspiracy of the enemy of Islam and country to keep the Afghans fighting among themselves. They will give teeth breaking defeat to foreigners and their slaves as they did to former invaders.
